

High Security Seal · Data Sheet

# Mega Cable Lock 500

## Double Security Barrier Seal

### Features

- 1 The body is designed with a rib pattern, which protects markings during rough handling.
- 2 The Mega Cable Lock's one-way locking mechanism provides fast and easy sealing.
- 3 One end of the cable is permanently secured into the locking body.
- 4 The Mega Cable Lock is anodized in solid colours, which accommodates customized laser marking.
- 5 The seals are etched with permanent laser marking. Laser marking offers the highest level of security as it cannot be removed and replaced. The seal's two locking bodies can be etched with identical information or according to customer requirements.
