

Tamper Evident Vehicle Key Bag

TAMPER EVIDENT SECURITY BAGS DESIGNED TO PREVENT THE POSSIBLE SPREAD OF COVID-19

The New Vehicle Key Tamper Evident Security Bag designed to allow the safe storage and movement of Vehicle keys.

The tamper evident key bags are designed to secure the vehicle keys whilst service/repair/test drives etc are being conducted.

The bags facilitate the secure storage of the keys, whilst a tamper evident closure gives reassurance to both staff and customers that no unauthorised entry and consequent possible contamination to the keys has been made.

The keys can still be activated through the bag thereby not restricting access to vehicles.

Features

- Made From 100% Recyclable plastic
- Tamper Evident Security Tape Closure offers clear visible signs of any unauthorised opening, thereby giving a clear indication of any tampering attempts and/or potential cross contamination threat of Covid-19.
- Information Box on bag to include details of Vehicle Reg, Customer Name, Date and Time.
- Barcode 128 with serial number as standard
- Perforated Receipt Tab at top
- Proprietary double-sided welding to prevent side cutting and re-sealing
- Made of Transparent Plastic to allow clear vision of keys
