INDICATIVE SEAL

MEGA TWISTER (MTW)

Application Seal

Fundamental and feasible piece for quick utility security.

The Mega Twister is an elementary utility seal designed with essential tamper-evident features. The seal has a transparent body for quick inspection of the twister insert sealing. Colour coded inserts and ample identifier marking area eases operations. The seal is small in size and versatile for any securing and identifying purposes.

Applications:

- Utility Meters & Scales
- Chemical and Oil Refinery
- Transportation
- Banking

PREVENTION · PROTECTION · PEACE OF MIND

- 1 The Mega Twister is moulded with a twister locking insert in a plastic transparent body for a clear view of the locking and evidence of tampering.
- 2 Stainless steel wire is required for the twister locking to achieve quick and tight securing of the seals.
- 3 A marking area flap is placed on the side for irreversible laser marking of identifiers such as name, logo, barcode, serial number and QR code.
- 4 Colour coding is possible with a combination of clear plastic body and vibrant colour insert, which is available in a wide range of choices.
- 5 Biodegradable additives for plastic material are available.
