Mega Twister Vertical

BREAKING POINT

Durable, Cost-Effective Meter Seals

The Mega Twister Vertical is an affordable, high-quality sealing solution for a diverse range of meters. Made of sturdy polycarbonate, high-impact ABS and polypropylene, the product provides excellent legibility for barcodes, serial numbers and information that are laser-marked onto the seal.

Typical applications for the Mega Twister Vertical include utility meters, scales, gasoline pumps, drums and totes.

Features

- 1** Colour coding with the Mega Twister Vertical is possible with the transparent body of the seal and the multi-coloured twister.
- 2** Heat staking technology is used to effectively permanently affix the Twister cap in the seal body. This provides high tamper evidence if the seal is cut or forced open.

- 3** The seal is etched with name, logo, sequential numbering and barcode using permanent laser marking for security and easy identification.

Laser marking offers the highest level of security as it cannot be removed or replaced.

Technical Specifications

PRODUCT

Material	Wire Type	Locking Length	Wire Length	Tensile Strength	Marking Area	Max Marking
Cap: High-impact ABS	Stainless steel: Ø 0.7 mm (in)	Ø 0.7 - 0.9mm (Ø 0.028 - 0.035in)	25 mm (0.984 in)	40 kg (88.18 lbs)	12 x 34 mm (0.47 x 1.34 in)	Serial no: 13 digits Barcode: 13 digits
Twister: Acetal	Stainless steel, plastic-coated: Ø 0.8 mm (in)					
Body: Polycarbonate and high-impact ABS						

OUTER CARTON

Carton Quantity	Dimensions	Weight kg/carton	Volume m ³ /carton	Standard Colours
1000 pcs	454 x 214 x 244 mm (17.87 x 8.43 x 9.61 in)	6.50 kg (14.33 lbs)	0.0237 m ³ (0.8369 ft ³)
